

The ARCHIP Crypto Certificate – actively managed by Maerki Baumann

The private bank Maerki Baumann has assumed a pioneering role in Switzerland through its development and expansion of services in the area of digital assets. Where an appropriate level of risk tolerance exists, we are convinced that this asset class, with all of its forward-looking characteristics, should be an integral part of any modern asset allocation.

Digital assets represent an interesting way to optimise the return and diversification potential of a traditional asset portfolio. This is because they exhibit only a moderate level of correlation to other asset classes, have different performance drivers, such as Bitcoin halving, and are less sensitive to government debt policy. What is more, blockchain technology has the potential to be applied in a wide variety of ways.

The ARCHIP Crypto Certificate offers the opportunity to invest in the price development of cryptocurrencies without having to hold them directly in your own wallet. It can be traded quickly and easily in the same way as traditional investment products. The certificate is a collateralised pure Swiss solution and meets the highest security standards. The certificate invests in digital assets. In doing so, the objective is to achieve long-term asset growth. The selection process is based on fundamental and chart-based technical analyses conducted by our proven specialists, who possess long-standing experience in the crypto sector. The strategy has a medium- to long-term investment horizon. Focus is placed on established cryptocurrencies with medium to high market capitalisation. The benchmark is the «Blue Chip Digital Asset Index» launched by STOXX and Bitcoin Suisse.

IMPORTANT LEGAL INFORMATION: This publication is intended exclusively for information and marketing purposes. It does not represent investment advice or an individual, specific investment recommendation. It does not constitute a sales prospectus and shall not be construed as a solicitation, offer or recommendation to purchase or sell any investment instruments or investment services or to engage in any other transaction. Maerki Baumann & Co. AG does not provide any legal or tax advice and recommends that investors seek independent legal or tax advice with respect to the suitability of such investments, as the tax treatment depends on the client's personal circumstances and may be subject to constant change.
